

The ISZB is proud to open the call for nominations for the Frederickson prize 2016, which will be awarded during the 2016 meeting in Istanbul. Prof. Frederickson's seminal contributions to research in zinc biology and to the crystallization of a zinc biology meeting are acknowledged by this prize.

The committee is looking for an outstanding researcher(s) who made important contributions to the field and significantly advanced our knowledge of zinc biology. All nominators, and endorsers must be current ISZB members in good standing.

Please send nominations for the prize, endorsed by a second member of ISZB to whom the message of nomination should be copied, to iszb.org@gmail.com by April 15th, 2016.
